Councilmember Rodriquez

A person pulled up, parked, and dumped disgusting stinky sewage from an RV behind our house!!

This homeless crap (literally crap!) is out of control!

I just want to report and vent a little - that this happened (twice) behind our home in Lake View Terrace. I just thought the city might like to know this is happening.

Maybe the city could service all the motorhomes with a "Gump truck" so the homeless don't have to dump it on the streets.

Concerned and disgusted citizens and taxpayers,
